needs. Fifteen hours must be face-to-face training in mental health services delivery;

- eight hours of parent teaming training, which includes partnering with parents; fundamentals of family support; fundamentals of policy and decision-making; defining equal partnership; complexities of parent and service provider partnership in multiple service delivery systems; sibling impacts; support networks; and community resources; and
- 3) 20 hours of continuing education every two calendar years. Topics covered are those identified in clause 1), above.
- 2. a Level II mental health behavioral aide must:
 - a) be at least 18 years of age;
 - b) have an associate or bachelor's degree or 4,000 hours of experience delivering clinical services in the treatment of mental illness concerning children or adolescents; and
 - c) meet the same orientation and training requirements as a Level I mental health behavioral aide;
- F. therapeutic components of preschool programs.

 "Therapeutic components of preschool programs" means those alterative elements of licensed day programs providing mental health services to a child who is at least 33 months old but not yet attended kindergarten.

Therapeutic components of preschool programs are:

- 1. individual or group psychotherapy provided by mental health professionals; and
- 2. any of the following activities, if the activities are included in the child's individual treatment plan or individual behavior plan:

4.b. <u>Early and periodic screening, diagnosis, and treatment services:</u> (continued)

- a) recreation therapy.
- b) socialization therapy.
- c) independent living skills therapy.

Therapeutic components of preschool programs are provided by a team of multidisciplinary staff under the clinical supervision of a mental health professional. A multidisciplinary team must include at least one mental health professional and one or more of the following: a mental health practitioner under the clinical supervision of a mental health professional on the team, or a program staff person (teacher, assistant teacher, or aide) if the person meets the qualifications and training of a Level I mental health behavioral aide and is under the direction of a mental health professional. "Direction" has the same meaning as described on page 17p, subitems 1-3 for mental health behavioral aide services.

Payment is limited to 72 hours of treatment in a calendar year unless authorization is obtained for additional hours within the same calendar year. The therapeutic components must be available at least one day a week for a minimum two-hour block. Payment is limited to one two-hour block each day; and

- G. therapeutic components of therapeutic camp programs. "Therapeutic components of therapeutic camp programs" means those alterative elements of a structured recreational program of treatment and care provided by:
 - 1. licensed day programs;
 - entities that meet the state licensing criteria for day programs, but operate no more than 30 days in any 12-month period; or
 - accredited camps.

The therapeutic components are the same as those described on pages 17r-17s for therapeutic components of preschool programs services.

4.b. Early and periodic screening, diagnosis, and treatment services: (continued)

Therapeutic components of therapeutic camp programs are provided by a team of multidisciplinary staff under the clinical supervision of a mental health professional. A "multidisciplinary team" must include at least one program staff person if the person meets the qualifications and training of a Level I mental health behavioral aide and is under the direction of a mental health professional and at least one mental health professional or mental health practitioner under the clinical supervision of a mental health professional. "Direction" has the same meaning as described on page 17p, subitems 1-3 for mental health behavioral aide services.

Payment is limited to 20 hours of treatment in a calendar year.

Payment is limited to the above components of family community support services, plus time spent traveling to and from the site where family community support services are provided. Travel is paid for at the hourly medical assistance rate paid to a case manager for case management services provided in Supplement 1 to this Attachment. Only 40 hours of travel per client in any consecutive six-month period is paid. The 40-hour limit may not be exceeded on a calendar year basis unless prior authorization is obtained.

To be eligible for medical assistance payment, a mental health practitioner must receive clinical supervision from a mental health professional. However, a mental health practitioner will be paid if the practitioner maintains a consulting relationship with a mental health professional who accepts full professional responsibility and is present on-site for at least one observation during the first 12 hours in which the mental health practitioner provides family community support services. Thereafter, the mental health professional must be present on-site for observation clinically appropriate when the mental practitioner is providing individual family or group skills training; such observation must be a minimum of one clinical hour. The mental health professional must document his or her on-site presence in the child's record.

4.b. Early and periodic screening, diagnosis, and treatment services: (continued)

The services are for the purposes of enabling a child to improve or maintain emotional or behavioral functioning in order to reduce or prevent the reliance upon more intensive, restrictive, and costly services, or to reunify and reintegrate the child with the child's family after out-of-home placement.

The entities eligible to provide therapeutic support of foster care services are the same as those for **family community support services**, page 17j. These entities provide therapeutic support of foster care services primarily in the child's foster home, but may also provide them in the child's day care or school, the home of a relative of the child, and a recreational, employment or leisure setting.

A provider of therapeutic support of foster care must meet the qualifications in items A through E, below:

- A. the provider must be skilled in the delivery of therapeutic support services to foster families caring for children with severe emotional disturbance. Mental health practitioners must receive 20 hours of continuing training every two years. The topics covered must conform to those listed in State rules governing training for family community support services.
- B. mental health practitioners cannot have caseload sizes of more than eight children.
- C. if the county board has not done so, the provider must provide or assist the child or the child's family in arranging mental health crisis assistance services for the child and the child's foster family that must be available 24 hours per day, seven days a week.
- D. the provider must submit a letter to the Department before providing therapeutic support of foster care services, assuring that the agency with which it contracts has adequate capacity to recruit mental health professionals and practitioners to provide such services.

4.b. Early and periodic screening, diagnosis, and treatment services: (continued)

the provider must ensure that therapeutic support of Ε. foster care services are given in a manner is consistent with national core values for foster care treatment.

A provider of therapeutic support of foster care services must be capable of providing all of the components specified in items A-C on pages 17b-17c for professional home-based mental health services.

Payment is limited to the above components, plus time spent traveling to and from the site where therapeutic support of foster care services are provided, up to 128 hours of travel per client in any consecutive six month period. These limits apply on a calendar year basis as well. Travel is paid for at the hourly medical assistance rate paid to a case manager for case management services provided in Supplement 1 to this Attachment. Additional travel hours may be approved as medically necessary with prior authorization.

To be eligible for medical assistance payment, a mental health practitioner must receive clinical supervision from a mental health professional. However, a mental health practitioner will be paid if the practitioner maintains a consulting relationship with a mental health professional who accepts full professional responsibility and is present on-site for at least one observation during the first 12 hours in which the mental health practitioner provides the individual, family, or group skills training. Thereafter, the mental health professional must be present on-site for observation as clinically appropriate when the mental health practitioner is providing individual family or group skills training; such observation must be a minimum of one clinical hour during the first 12 hours. The mental health professional must document his or her on-site presence in the child's record.

13.d. Rehabilitative services.

Rehabilitative services are limited to:

- (1) Except as otherwise noted, services provided under the recommendation of a physician. The therapeutic treatment must be a part of the recipient's plan of care; and
- (2) Services that are medically necessary and the least expensive, appropriate alternative.

Mental health rehabilitative services are the following:

- Coverage of day treatment services for mental illness is limited to:
 - 1. Services recommended by a psychiatrist, licensed psychologist, licensed independent clinical social worker, registered nurse with certification as a clinical nurse specialist in psychiatric and mental health nursing or a master's degree in nursing or one of the behavioral sciences or related fields, with at least 4,000 hours of post-master's supervised experience; licensed psychological practitioner; or licensed marriage and family therapist with at least two years of post-master's supervised experience.
 - 2. Services supervised by an enrolled psychiatrist or other mental health professional listed in item 6.d.A.
 - 3. Services provided in or by one of the following:
 - A. Joint Commission on the Accreditation of Healthcare Organizations approved outpatient hospital;
 - B. Community Mental Health Center;
 - C. County contracted day treatment provider.
 - 4. Services provided up to 15 hours per week.

13.d. Rehabilitative services. (continued)

• Mental health community support services are recommended by a mental health professional defined in item 6.d.A. after a diagnostic assessment and a functional assessment. They are provided pursuant to an individual treatment plan, written by a mental health professional or by a mental health practitioner defined on pages 541-54m under the clinical supervision of a mental health professional.

The services are provided on a one-to-one basis or in a group in a recipient's home, a relative's home, school, place of employment, or other community setting.

The following are eligible to provide mental health community support services:

- 1. An entity certified by the Department and operated by a county.
- An entity certified by its host county.

Provider Qualifications and Training

- 1. A mental health practitioner must receive ongoing continuing education training as required by the practitioner's professional license; or, if not licensed, a mental health practitioner must receive ongoing continuing education training of at least 30 hours every two years in areas of mental illness and mental health services.
- 2. A mental health rehabilitation worker must:
 - A. Be at least 21 years of age;
 - B. Have a high school diploma or equivalent;
 - C. Have successfully completed 30 hours of training during the past two years covering recipient rights, recipient-centered individual treatment planning, behavioral terminology, mental illness, co-occurring mental illness and substance abuse, psychotropic medications and side effects, functional assessment, local community resources, adult vulnerability, and recipient confidentiality; and

13.d. Rehabilitative services. (continued)

- (c) Have 18 hours of documented field supervision by a mental health professional or mental health practitioner during the first 160 hours of contact work with recipients and at least six hours of field supervision quarterly during the following year;
- (d) Have review and cosignature of charting of recipient contacts during field supervision by a mental health professional or mental health practitioner; and
- (e) Have 40 hours of additional continuing education on mental health topics during the first year of employment.
- E. Receive ongoing continuing education training of at least 30 hours every two years in areas of mental illness and mental health services and other areas specific to the population being served.

Components of Mental Health Community Support Services

A mental health professional, a mental health practitioner under the clinical supervision of a mental health professional, and a mental health rehabilitation worker under the direction of a mental health professional or mental health practitioner and under the clinical supervision of a mental health professional must be capable of providing the following two components:

- 1. Basic living and social skills, which may include:
 - A. Communication skills.
 - B. Budgeting and shopping skills.
 - C. Healthy lifestyle skills.
 - D. Household management skills.

13.d. Rehabilitative services. (continued)

- E. Transportation skills.
- F. Medication monitoring.
- G. Crisis assistance skills, including relapse prevention skills and developing a health care document.
- 2. Consultation with relatives, guardians, friends, employers, treatment providers, and other significant people, in order to change situations and allow the recipient to function more independently. The consultation must be directed exclusively to the treatment of the recipient.

A physician, pharmacist and registered nurse must be capable of providing medication education. Medication education includes training the recipient in the symptoms of mental illness, discussing the benefits and side effects of psychotropic medication, and discussing the importance of medication compliance. Medical education enables the recipient to better manage the symptoms of mental illness, allowing the recipient to return to independent functioning with less chance of relapse.

The services below are not eligible for medical assistance payment as mental health community support services:

- 1. Recipient transportation services.
- Services billed by a nonenrolled Medicaid provider.
- 3. Services provided by volunteers.
- 4. Direct billing of time spent "on call" when not providing services.
- 5. Job-specific skills services, such as on-the-job training.
- 6. Performance of household tasks, chores, or related activities for the recipient.
- 7. Provider service time paid as part of case management services.

13.d. <u>Rehabilitative services.</u> (continued)

- 8. Outreach services, which means services identifying potentially eligible people in the community, informing potentially eligible people of the availability of medically needy mental health mental health community support services, and assisting potentially eligible people with applying for these services.
- 9. Services provided by a hospital, board and lodge facility, or residential facility to patients or residents. This includes services provided by an institution for mental disease.
- Mental health crisis response services are services recommended by a physician, mental health professional defined in item 6.d.A., or mental health practitioner defined on pages 541-54m. An entity operated by or under contract with the county in the county in which the crisis occurs is eligible to provide mental health crisis response services.

Mental health practitioners and mental health rehabilitation workers must complete at least 30 hours of training in crisis response services skills and knowledge every two years.

The components of mental health crisis response services are:

 Crisis assessment. Crisis assessment is an immediate face-to-face appraisal by a physician, mental health professional, or mental health practitioner under the clinical supervision of a mental health professional, following a determination that suggests the recipient may be experiencing a mental health crisis.

The crisis assessment is an evaluation of any immediate needs for which emergency services are necessary and, as time permits, the recipient's life situation, sources of stress, mental health problems and symptoms, strengths, cultural considerations, support network, vulnerabilities, and current functioning.
